October 25, 1994

Dear Parents and Friends of South High School,

Welcome to South High School's Band-O-Rama concert. The Marching Mustangs have developed an enviable reputation for quality music and precision drill work. The half-time shows at the 1994 home football games have extended that tradition. We are especially proud of the cooperative relationship between the fine arts and athletic departments.

In District 99 our commitment is to provide the very finest educational experiences for students. The commitment recognizes valuable learning experiences can take place through a variety of disciplines in a variety of settings. We are confident that the musicians you see here tonight are developing not only their musical skills but also learning valuable lessons about cooperation, attitude, motivation, preparation, and achievement. The lessons from these experiences will extend far beyond this marching season.

Thank you for attending this event. Your presence provides important support for the musicians, teachers, and school. Enjoy the performance. We hope you will return often for future musical performances and other events at South High School.

Sincerely,

David R. Eblen
Superintendent of Schools

Dear Parents and Friends of South High School,

I want to warmly thank all of you who are supporters of the South High School Marching Mustangs and Color Guard. These students and their directors put in many hours of time to learn and perform their routines at athletic contests, pep assemblies, marching competitions and parades. The Marching Mustangs portion of the music curriculum at DGS is a vital learning experience for all those involved. The musical learning that occurs as well as learning to be part of a group and work as a team are all important in the total educational experience of the students who participate in the Marching Mustangs. We are always proud of how this organization represents South High School and the entire District 99 community, in our home community, throughout the state, and even throughout other areas of the entire country as the Marching Mustangs travel to festivals and competitions annually. For many of these students, the Marching Mustangs become a focal point and a wonderful series of positive experiences and memories from their high school education.

Again, my thanks to all of you who have lent support to the Marching Mustangs in so many different ways. Your involvement is as crucial to the success of this program as is that of the students and teaching faculty. I hope each of you, also, are finding rewards and satisfaction through your support.

Sincerely,

Craig A. Zeck

Dear Parents and Friends of South High School,

Welcome to Downers Grove South High School for tonight's Band-O-Rama concert. Over the years, a tradition of excellence in music has been established at South High School. The 1994-95 Marching Mustangs are continuing that tradition. At every home football game, the spectators can witness nearly 400 South students in action. The Marching Mustangs have been a very important part of that Friday night Excitement. Their pre-game shows and half time performances have been second to none. They have worked closely with the football team to develop a western theme for this year's program. The athletic program here at South High School is very fortunate to have the support of the music program and looks forward to a great relationship with them.

Band Director, Craig Roselieb and his assistants have put in countless hours during the summer and fall with camps and rehearsals. Tonight, you will see the fruits of their labor. Enjoy the concert and please continue to support the music of the Marching Mustangs.

Sincerely,

Terry J. McCombs
Director of Athletics

Dear Parents and Friends of South High School,

Good evening and welcome to our first annual Band-O-Rama concert. We have invited you here tonight to help us celebrate a very successful and rewarding fall season. Our performing groups and football teams have enjoyed tremendous support from parents, fellow students, and the administration. We are here tonight to show all of you our appreciation. We hope our performance tonight will help you to catch the Mustang Spirit as we send our football team on to the state playoffs this weekend!!

The success of our band program this year can be directly attributed to the positive energy of our students and the leadership of our section leaders and band staff officers. Right from the very beginning of June, these students were instructed to be teachers, friends, and supporters to each of the members of their sections. They have gone way beyond these expectations to develop a band that thinks, works, plays, feels, and makes music together. With a new program change in effect, all of our students have made wonderful progress in making the changes work for the good of everyone. As a new director in the first year of a new program, I am both grateful and excited to be a part of such an outstanding group.

All of the faculty, staff and students involved in our band program, cheerleaders, fillies, and athletics are excited to be together tonight to provide this concert. Our students can only succeed in an environment where pride, integrity, talent and respect all come together under one roof.

Thank you for your attendance tonight and your support!

The Family of John Tautkus

George & Mickey Toler

Mr. & Mrs. S. Walis

This year, Mustang Band Booster parents have provided support for the Marching Mustangs in many traditional ways, including providing and cooking food, sewing of costumes and building and repairing equipment, chaperoning or attending competitions, working in the pit crew and countless volunteer hours spent on fund raising, etc. In addition to these types of support which every organization must accomplish, this year the Boosters have also been able to purchase 40 new band uniforms, 23 new color guard dresses and we have made the first payment on a five year lease/purchase program to acquire the fine new drums for the drum line. Several companies have provided the band with goods, services and money which greatly assisted the successful accomplishment of these goals. We would like to acknowledge these companies and thank them for their willingness to invest in our students.
